An interchangeable screen is installed below the shaft which, depending on the size of the openings, defines the size of the shredded swarf and therefore the hourly output of the shredder.

The reduction efficiency of the swarf volume and the hourly output of the TRA200 shredder can be evaluated with experimental tests on your swarf at the headquarters of the company FAMA s.r.l.

DIMENSIONS  
1300x300x240H mm

POWER  
3 kW

VOLTAGE

In case of breakage or wear of the tooth, simply act on the screws and replace the single knife;  
2. The screen can be defined in advance and possibly replaced at a later time. It regulates the chip size and consequently the hourly production;  
3. The shredder can be mounted on telescopic slides to extract it from the work seat and access the shredding mouth safely.
